If you don't have Autocad, it can be downloaded here: Activating Autocad through trial version will not work. You need to purchase a full version Extract the folder Autocad_18.exe (or Autocad_19.exe for the next version). You can open the extracted file in a word processor for double checking the paths. You'll get a little dialog to accept the agreement. Read that and then go back and make sure you select the right key. It should look like this: -----Begin Autocad License Agreement----- Product: Autodesk Autocad Version: 18 Extended-License-Agreement: AUTOCAD.LICENSE.Agreement.txt Welcome to Autodesk! What's New In AutoCAD?

When you draw with AutoCAD, you can now import and draw with DXF documents directly into your drawing. Open the DXF document in the Draw menu and select "Import Text." AutoCAD imports the text into your drawing and replaces the existing text. All required drawing options are on-screen and easy to use. The "What You Can Draw" dialog box contains key planning options, and you can now configure what's visible. You can now use the Paper Sizes dialog box to set paper sizes. When you import a DXF document, you can use the "Import Options" section to specify your paper size. (video: 0:33 min.) Paste and import a PDF: You can now import paper that's saved in PDF format directly into a drawing. The Import tool displays the Paper tab. Select the PDF file and AutoCAD imports the drawing. Automatic cleaning of imported symbols and text: AutoCAD's Clean Up tool improves the look of imported symbols and text. Before AutoCAD performs the cleaning, it automatically determines what symbols and text are likely to be problematic. If you imported a DXF, then symbols are the only elements that need to be cleaned up, as AutoCAD automatically cleans up text after the drawing is open. (video: 0:52 min.) You can now use the Clean Up tool to automatically clean up symbols, such as lines, dots, circles, arcs, polygons, and ellipses, by converting them into straight lines. You can also clean up text. The Clean Up tool runs automatically after each drawing. You can use the Clean Up tool to clean up symbols and text after the drawing is open (video: 0:51 min.) You can now use the Clear tool to clean up symbols and text that are no longer needed. When symbols are cleaned, they are no longer displayed in the drawing. You can use the Show tool to display any symbols that are hidden. (video: 0:51 min.) You can now use the Clean Up tool to clean up text that's not used in the drawing. You can now use the Clear tool to clean up unused text. You can use the Clear tool to delete portions of lines, circles, and polygons. You
