The 2000-2003 3 is the first for BMW with DOHC. This engine is known for its great compression and timing performance. The 2000-2003's parts can be found very competitively priced for a factory "as new" engine. Most are made in Germany. German manufacturers only manufacture "As New" engines and have to pay attention to the environmental laws regarding emission standards. It is currently unknown what changes, if any, will occur to the environmental emissions for 2004+. The parts come directly from BMW and are completely rebuilt. The majority of the parts are from Germany. The engine is surfaced with BMW Motorsport R&D coating and is cross race proofed.The main parts found in this engine are: • Block • Heads • Throttle body • Intake manifold • Exhaust manifold • Air Filter • Oil pan (*) for a customized version Application:2000-2003 BMW 3 Series Coupe and Sedan, 4 door.
