What's new in Close Your Eyes -Anniversary Remake-:

Full Steam Close Your Eyes -Anniversary Remake- Full Steam Hi guys.This remake is about 50% done. I finished everything except gameplay and story as well as some parts that require art for resources and such, and I'm working on the coding now. The concept is that I wanted to remake a game that I bought for PS1 a long time ago, and I decided to remake this one since I never finished it. I changed some things and added some things to it as well. The game might seem dull but I added a 100% difficulty for the hard mode, which means I added a lot of hard bosses, perhaps the most difficult of which is the ending boss. Would it be okay to have fansubbed this?The remastered version is available now on Steam. I also uploaded a new trailer (only English version) and fixed a few minor problems that I had. The package itself is quite bulky so please make sure that you have enough space.Currently you have an option to disable subtitles and music or turn them on separately. If you would like to disable subtitles, you can do so by going the services section under the steam window options. Also, under the overal section there's a link to change the name of your package. As a small reward for the upload of the first video on youtube, and the people who helped me out, I've included all of the art up to completion. I left some parts in red which are bosses.The 8 pages is a little bit confusing, I'm going to make an explanation and expand on it in the build of the day. The red areas are bosses that you fight to obtain the power up item. The online only portion: Menu My Works OpTic Lobby Game Center Features Main Quest Deck Skills Promotions Voice Acting Facebook Twitter Youtube Homepage Some of these above are temporary. If you want to buy me a game, you can!! just started to create an account on itch.io to post games as I don't know about other websites. I'm now releasing the games I don't manage so more games will appear in the future! Games PS1 "Imagine that you're the only survivor of a meteor swarm. That Swarm is inf
