I have three functions: a Promise function `getUserId(data) { return data.id }` an Async function `function getUserInfo(id) { return new Promise((resolve, reject) => { const http = require('http'); var _userId = 0; var _res = { userId: 0 }; http.get("", (_userId, _res) => { if (_userId === id) { resolve(_res.userId); } else { reject(_res.userId); } }) console.log(_res); resolve(_res); }) }` and a function that tries to execute two other functions if the user is logged in. `function isAuthenticated() { return new Promise((resolve, reject) => { if (!!localStorage.getItem('token')) { return getUserInfo(localStorage.getItem('token')); } getUserId(); resolve(_res); }) }` if(isAuthenticated()) { return getUserInfo(id)

Vast World Connects You with Others
A Small Core Team Goes All-Out

Favorite Features:

- Lore The story of a multilayered story told in fragments. A young girl accidentally wins an Elden Ring, revealing the journey of three different people—as they change their lives and explore incredible worlds in search of their destiny.
- Combat High-Speed Combat System A fast, new attack/block system that offers unique choices in terms of specialized attacks that produce spectacular effects. For example, the player can perform a 30-hit combo using multiple attacks, or perform a giant wave attack that fills the screen with the blood of your foes. You'll also be able to freely perform three different attacks for a single action. Every action performed in combat (e.g. special attacks, blocks, casting magic) affects your score and action points, and generates an appropriate amount of blood, thus creating a fresh atmosphere in battle. Player with high action points can use spectacular attacks to deal massive damage to their enemies.
- Character Development On/Off Extra Dormancy The development of your characters' actual relationships with others during on- and off-game segments. There are four different relationships, and you will have the ability to lead a friendly or hostile attitude to anyone you meet, resulting in on- and off-game experiences of varied interest. This means that you can create relationships only with friends, or the other way around.
- Sense of Dislocation (OUTLINE) A People Skills System Maintain your relationships with others to increase your score. Check your relationships in battle at the end of your turn.

Any positive change will be added as a bonus to your total score, along with any negative changes (including those that would improve your score). Naturally, your relationships with others will improve with experience.

- Battle Navigation World Revealization Encounter Important People of the World Non-playable characters (NPCs) have all been implemented as locations. You can establish a dialogue with NPCs by paying their respects during on-game segments, as well as receive important information and items

Noctem - " A marvelous RPG that is easy to play and brings together elements such as a time limit and an action RPG. The game has a pretty interesting and fresh story, very amazing graphics and music, which keeps you immersed in the game." SonoGamer - " It's a time-bound action RPG with a simple control system. It's a perfect game to play through on vacations" Stressgod - "It is a beautiful adventure that is easy to start playing, and there is a lot of fun to be had. It is easy to play, can handle an awful lot of content, and provides a great sense of achievement." "The Myth of Mobius has been a work of great passion to myself and my team, and I hope it can provide a glimpse of a new era of video games in the Realms of Fantasy. I believe that VRPGs (Virtual Reality Role-playing Games) will be a key element of an awesome revolution in the gaming industry. I look forward to working with you as we strive to deliver the greatest game possible." Last edited by RG1313; 03-26-2018 at 09:31 PM. "If there's a better time than the present to make a better man than you, I'll eat my hat." "Aha! This place is like a Library. Excellent! I'm really going to enjoy it here! I'll start by going to the Academy and then shall explore the archives! I'm going to start by reading the books in the bookcase along the wall..." Aah, you should really show off your cosplay more! If you wish to collaborate for something I would be more than happy. Weird. I actually think you seem to know a bit more about cosplay than I do, so I don't see what you're asking for. I mean, I knew that seeing a particular cosplay could make you love it, but I didn't know it would inspire you to make one. If it inspires you I hope you do, but I'm not sure how it's going to look when done. We'll see. In other news I tried the prologue...although a bad choice...it's so short compared to the rest of the game I was hoping for a short story of sorts, but it really isn't. Then again I'm not a fan of story so...yeah. "Prologue" Never once did I bff6bb2d33

The official TNG website also describes the game as "A powerful new role-playing game for the PlayStation Portable.". As you can see, this is very different from anything I've seen. I suppose it's supposed to be a PSP version of FF7. And people were asking for a Tales of style RPG on PSP for years. I was looking forward to this one. They should've released it with Chrono Cross, Harvest Moon, another Tales of title and maybe even a PSP RPG like Ar Tonelico. I'd be so happy. I suppose it's supposed to be a PSP version of FF7. Well that's good news, now. The PlayStation Portable is lacking in RPGs and Tales of Vesperia could fill that big

Perception of functional health status in terminally ill cancer patients. The aim of this study was to compare health status of terminally ill cancer patients with population-based sample. In a cross-sectional design, 30 terminally ill cancer patients participated in an interview and completed a self-administered questionnaire including the Mini-Mental-State Examination (MMSE) and the Functional Assessment of Cancer Therapy-General (FACT-G). Population-based sample (n=378) was recruited from the same centres as the terminally ill cancer patients. Both patient groups were comparable regarding age and sex. Mean MMSE scores were 19.4 (95% confidence interval 19.2-19.5) in patients and 27.3 (27.2-27.3) in population-based sample. Six out of 10 patients had an MMSE score of 0 or 1 and only 1 patient scored a 30 on the MMSE (pQ: Overlaying a WPF Image on a Windows Forms Image I am trying to overlay a image created in WPF on a image created in C#.
