DNG pre orders are accepted 24/7!! quote from DNG Quote from: DNG 01:00pm Hello Everyone, We hope you enjoy the Early Access servers. We've pushed out a new build a few times since going public with it and want to make sure you are experiencing the best version of the game. We will be performing another server bump for the build on Thursday, November 15th at 12:00am server time. At this time, the build will be taken down for a few hours so that we can update the database for the server. We recommend logging out and back in while the server is down. There will be no impact to your in-game items and progress, everything will persist and be synced. We understand this is a large change, but we believe our current build is the best for the Alpha phase of the Early Access period. 01:08pm Hello Everyone, So as we've mentioned last night, we just went live to the Early Access servers. These new Early Access servers will be to help us during testing, and to help us address any issues early on. We will also be using these servers to push out small changes before a new build is released. 01:33pm Quote from: DNG Hello Everyone, Over the last few weeks, we have been working diligently to get the Endurance System ready for release. We have been working on tuning various parts of the Endurance System, and we have found that players that are starting with high Endurance make fewer mistakes than players that are starting with lower Endurance. If you would like to be among the group that has the lowest Endurance, you can reset your Endurance at any time during the First Tier by talking to Siri at any Port during your Endurance Limit. The portal should automatically open up when you meet Siri. 01:56pm Quote from: DNG In addition to a new Endurance System, we are also changing the way players gain item drops from monsters. We've found that players that don't use the Endurance System will suffer a larger item drop penalty bff6bb2d33
