s - Eric White jumpsuits and helmets have a profound effect on the pilot's situational awareness. Overcast skies mask the weather around you and identifying enemies that belong to a friendly flight becomes an impossibility. Hidden from the cockpit, the pilot has become a blind pilot. While the Cessna 152 is capable of myriad mission and support roles it is at its best in air-to-air, close air-support, and battlefield surveillance roles. While the Cessna is not in the same class as say, the L-39, it can fly faster than the jet and

Going further East, the Cessna 195 can replace the Cessna 182, and can be tandem-seated. The Hawker Siddeley Bushmaster V, the Super Bee, and the Hawker Siddeley Insignia were all used in this capacity. A similar story is told with the
